### **Consumer Confidence Report Ready**

The City of Norman Water Utilities Department has completed preparation of the 2008 Consumer Confidence Report (CCR). This annual report is mandated by the U.S. Environmental Protection Agency to inform the public regarding water quality, consumer demand, and methods of conserving water. The Operations Staff at the Vernon Campbell Water Treatment Plant are testing the water throughout the treatment process everyday to ensure it meets and in many cases exceeds the National Drinking Water Standards set by the EPA.

Every water customer in Norman will be mailed a copy of the CCR and additional copies are available at City Hall. The CCR can also be found on the City's website; <http://www.ci.norman.ok.us>.

The Water Utilities Department considers the CCR our opportunity to make every Norman citizen aware of our efforts to provide exceptional water service every day of the year. We encourage consumers to become informed and help conserve our most precious resource.... water.
